# The Principle

Because the quality of your products deserves a container to match, we have created for you a catalogue dedicated to our packaging solutions, compliant with current regulations.

Functional, durable, aesthetic or customizable, our containers are designed to meet your requirements.

Choosing the right packaging is much more than a practical matter: it's a strategic decision. It's about offering an experience, building customer trust, and making a lasting impression from the very first contact.

Browse our selection of plastic and metal jerrycans and drums to find the packaging that will make all the difference.

## **P12LB**

PLASTIC JERRYCAN

Gross Weight : 10,50 kg

Net Weight : 10 kg

Tare : 0,50 kg

COLOUR ●

## **P6LB + 0,50 €/kg**

PLASTIC JERRYCAN

Gross Weight : 5,04 kg

Net Weight : 5 kg

Tare : 0,15 kg

COLOUR ●

## **P30LB**

PLASTIC JERRYCAN

Gross Weight : 26,05 kg

Net Weight : 25 kg

Tare : 1,05 kg

COLOUR ●

## FP60

PLASTIC JERRYCAN

Gross Weight : 52,1 kg

Net Weight : 50 kg

Tare : 2,10 kg

COLOUR ●

## FP120

PLASTIC JERRYCAN

Gross Weight : 104,6 kg

Net Weight : 100 kg

Tare : 4,60 kg

COLOUR ●

## PRACTICAL

Robust, stackable HDPE jerrycans, outfitted with a wide screw-top opening and an ergonomic handle to ease handling.

Pros : best quality-to-price ratio in the range; feather-light weight for easy shipping; material ensures optimal preservation of fragrances.

Cons : basic aesthetics; occasional sensitivity to acidic raw materials.

## FP220

PLASTIC JERRYCAN

Gross Weight : 208 kg

Net Weight : 200 kg

Tare : 8 kg

COLOUR ●

# AL-CAN

**AL-CAN**  
EXPORTS

**A1ALC**

+ 2,80 €/kg

Gross Weight : 1,13 kg

Net Weight : 1 kg

Tare : 0,13 kg

METAL JERRYCAN, ALUMINUM (ALCAN)

Alcan Aluminum Jerrycans: lightweight, chemically inert, and oxidation-resistant, with a tamper-evident closure. Tested for leak-proof integrity and resistance to oxidation.

Pros :

- Optimal protection for fragile concentrates
- Stock of 5,000 and 10,000 units available on request
- Custom colors available (lead time applies)
- It's cheaper because it's produced in India

Cons :

- It's not made in France

# TOURNAIRE

## ALUMINUM METAL JERRYCANS

Discover Tournaire's 100% Made-in-France aluminum metal jerrycans, guaranteeing exceptional quality. Available in 1 L, 6 L, and 12 L sizes, they combine lightness, strength, and optimal leak-proof performance. Manufactured under strict quality control, they ensure long-lasting preservation.

Pros : Made in France  
Cons : Higher cost

**A1L**

+ 3,80 €/kg

Gross Weight : 1,13 kg

Net Weight : 1 kg

Tare : 0,13 kg

**A6L** + 2,40 €/kg

Gross Weight : 5,48 kg

Net Weight : 5 kg

Tare : 0,48 kg

**A12L** + 1,60 €/kg

Gross Weight : 10,8 kg

Net Weight : 10 kg

Tare : 0,80 kg

## FA30

### DRUMS

Gross Weight : 28,05 kg

Net Weight : 25 kg

Tare: 3,05 kg

This compact drum is equipped with a small ergonomic handle and plastic plugs, preventing metal shavings from forming that could oxidize or alter the contents.

## FA60

Gross Weight : 56,35 kg

Net Weight : 50 kg

Tare : 6,35 kg

## FA120

Gross Weight : 109,9 kg

Net Weight : 100 kg

Tare : 9,90 kg

Its body is protected by a finish varnish which, if damaged by impacts during transport, can crack and expose the aluminum, thereby promoting oxidation.

## FA 220

Gross Weight: 216,7 kg

Net Weight : 200 kg

Tare : 16, 40 kg
